

FRIDAY, APRIL 21, 1893.

The recent cold nipped the crops in Tennessee, Mississippi and Arkansas.

Peoria, Ill., was the Republican Tuesday in the city election, the first time in many years.

At Park Rapids, Minn., snow has fallen in the last few days to a depth of twenty inches.

The *Reformer* is a new temperance paper at Bowling Green. It is a splendid little sheet.

George Matthews, a young farmer living near Harrodsburg, committed suicide Tuesday by taking strychnine. He had been drinking.

Belgium has taken another step toward Republicanism. The Chamber of Deputies through fear of revolution will grant universal suffrage.

Owensboro is making extensive arrangements to entertain the G. A. R. Encampment on the 25th inst. Ohio county should be well represented.

Congressman, Asner G. Caruth, of Louisville, who has been sick at Washington for some time is improving in health, but losing in political popularity.

The *Livermore Chronicle* is the name of the latest visitor to our exchange table. It is a bright, new paper, and we wish our new neighbor a long and prosperous life.

William R. Morrison, the advocate of Horizontal Tariff Reduction, is now in favor of replacing the tax on sugar. Such a plan may please the Democratic tariff tinkers, but a tariff on sugar will not please the people.

Our Cincinnati correspondent, as the reader will notice, has punctured Mr. J. L. Taylor's bubble in regard to the alleged lack of "backbone" on the part of the County Court in ordering the election on the whisky question, but he did not go far enough. Had he been acquainted with the circumstances he could have truthfully said that many of our citizens who signed the petition to submit the question will vote against the saloons. When the petition had been properly presented it was mandatory on the Judge to order the election.

LILLIAN.

Master Franklin, the three-year old son of Mr. and Mrs. Taylor Beard, died at their home in this place, last Tuesday. On the day before the little fellow was alone in the room, and getting hold of a match struck it, lighting his clothes. The flames covered his face in an instant, and the burns caused his death the next day. The child was considered rather bright for his age and the sad occurrence brought great grief upon his fond parents and brothers and sisters.

—[Breckenridge News.]

Mrs. Beard is a niece of Mrs. Bishop of this place and the family is well known here.—[Grayson Gazette.]

Williams-Roark.

Mr. A. I. Williams and Miss Josie Roark, of Centertown, were married Monday in Jeffersonville, Ind. There was no opposition to the match but the young people liked the novelty of the thing and so they went. Mr. Williams is a popular druggist of Centertown, and Miss Roark is the daughter of Mr. W. T. Roark, and a worthy young woman. We wish them pleasant sailing.

Main-News.

Mr. J. W. Malin and Mrs. Zelter Stevens, both of the Liberty neighborhood, were married at the home of the bride yesterday evening. They are quite popular, and their many friends wish them a long and happy life.

WASHINGTON.

Politics and Things Politicians think the capital as they appear in our Correspondence.

Spencer of the United States Court instructed the receiver of the Georgia Central to observe his contract with the engineers.

Judge Deemer, at Council Bluffs, Ia., has rendered a decision denying the power of the state railroad commissioners, holding that their orders are binding on railroads.

The whisky warehouse receipts forgeries of A. R. Sutton at Louisville have caused the suspension of the Mattingly & Sons distillery.

In a fit of madness, a German named Burkhardt at Fairbury, Ill., held his 16-month-old niece against a red-hot stove till she was fatally burned.

Switzerland is hunting for anarchists in consequence of a rumor that Emperor William's life will be attempted while en route through the republic to Italy.

German newspapers taunt the Bismarck monument committee with cowardice and fear of the emperor in not using the fund and erecting a monument.

Life is often made a failure by those who would make it a shining success through a misapprehension of the duties of life. There are noble-hearted, good women and men too, who have built for themselves some grand ideal in which they propose to themselves leave a temple of good examples and leave the world better because of their good works, forgetting that the world is too practical to be greatly influenced by a life lacking a focus. No great man or woman has ever succeeded in eliminating home from the life-work and left a perfect life picture. While there are many hapless homes, there are many about which cluster the beauties of approximate heavenly bliss. No life is perfect in its powers, nor full in its richness to bless, that does not enjoy the strength of a happy home influence.

The first telephone that was ever used in medicine was not a telephone at all, but a scientific instrument in any sense of the term. A little more than 50 years ago the employees of a large manufacturing bureau began their leisure hours by kite-flying. Kites large and small went up daily, and the strife was to see who could get the largest. This twine which held them was threaded with a wire and twisted by the ladies of the village. One day to the tail of the largest kite was attached a kitten sewed in a canvas bag, with a netting over the mouth to give it air. When the kite was at its greatest height—200 feet or more—the mewing could be distinctly heard by those holding the string. The clearness of the atmosphere was attributed to the hearing of the kitten's voice. This is the first account we remember of speaking along a line.

It may be true that Mr. A. J. has no valid claim to the seat now held by Senator Martin, of Kansas, but even if that were an absolute certainty it would not have justified the underhanded methods resorted to by Senator Gorman to prevent an honest investigation of Martin's right to the seat, after the Committee on Privileges and Elections had formally agreed to report a resolution to the Senate authorizing that investigation. After he had learned that the Committee had agreed to report that resolution, Senator Gorman went to Senator Vance, Chairman of the Committee, and told him that the Committee must not report that resolution, but must vote, that is, its Democratic members, must vote to reconsider the action of the Committee in ordering the resolution reported. To the credit of Senator Vance and the other Democratic members of the Committee, Gorman's orders were not obeyed. The resolution was reported, but it is doubtful whether it will be acted upon before next winter, as Gorman succeeded in getting it referred to the Committee on Contingent Expenses, which may or may not report it back to the Senate at this session.

Secretary Gresham is credited with a degree of smallness that is hard to reconcile with his ability, in his efforts to get even with a dead man for having refused to cast his influence for him when he was a candidate for the Presidential nomination before the Republican National Convention of 1888. It is said that Secretary Gresham, not satisfied with dismissing personal friends of the late James G. Blaine from the State Department and Diplomatic and Consular, has actually taken the trouble to ask the heads of other departments to dismiss them as fast as they can locate them.

Sensor Gorman called on Mr. Cleveland this week for the first time since he was inaugurated, and, although he did not go to ask for patronage, he was snubbed. He went on his capacity of boss of the majority of the Senate. Mr. Cleveland informed him that when the Senate had finished the work for which they had been called together in extra session, he would notify it in the customary manner. The program had been to adjourn on Wednesday of this week, but it is now expected that it will get away about that time next week.

The slaughter is becoming general in the departments, and, although the dismissals are as yet confined to the chiefs of divisions and officials not in the classified service, there is a general feeling of uneasiness among the Republicans who hold positions in the classified service.

The Baptist Sunday School takes a collection every Sunday now instead of every other Sunday as formerly. So that the candy-loving small boy and girl of Baptist parishes must save those coveted coppers for use on Sunday morning. And the same remark is applicable to the wax chewing dandy and dandy of Baptist parishes as well.

[OWENSBORO MESSENGER.]

Commonwealth's Attorney Rowe was interviewed regarding the unusual number of indictments, which are being dismissed on the account of demurrer. He said, with reference to the indictment against George Rice, for gaming, which was the one under consideration, that it simply failed to charge an offense. The statute denounces the offense as "engaging in a game which money is bet, won and lost." It is necessary to recount these facts in any indictment under the statute, while in the indictment which was before the court it was only stated that the defendant was guilty of gaming, without defining in any way what gaming was. As to the other indictments dismissed, Mr. Rowe said the reason that moved the court were almost as numerous as the cases themselves, but were all due to some physical defect.

E. W. Taylor, who was the principal instigator of the proposed vote on the whisky question, yesterday declared his intention of having the order for the election withdrawn. He was around for the purpose of paying(?) the cost of the affair which he had expected to assume. We are advised, however, by two of Hartford's ablest attorneys that it is a matter of doubt whether or not the order authorizing the election can be withdrawn at will. At any rate the friends of Prohibition will lose nothing by keeping their eyes open.

CROWELL NOTES.

April 25.—Mr. Editor: The little city of Crowell is on a business boom. Every department of our varied industries is flourishing. Our merchants have the best trade they have had for many years, and are rapidly regaining much of the ground they lost when the old E. & P. railroad was put through.

The tie business is at a flood tide—immense numbers of them are cut, and the large amount of money necessary to carry on the work makes times very flush. The men connected with the work are all quiet orderly citizens.

The school in charge of Miss Edna James is progressing nicely. This is Miss Edna's first school, but she is giving general satisfaction.

The damp cold weather has had quite a depressing effect on the aspirations of our many young dudes, but nevertheless they venture out now and then, between showers in their loud, loud pants, and louder ties, and strut about to the evident satisfaction of their duds-ships and the amusement of the more sober heads.

Attorney Heavrin, of our city, was out with us one day this week taking depositions in some case, the style of which your scribe failed to learn.

I was not a little surprised in looking over yesterday's REPUBLICAN to find one J. L. Taylor had so to speak, sailed into County Judge Morton, because in the discharge of his duties as County Judge he was called upon to order a vote taken on the whisky question. Anyone acquainted with the law is aware that after the petition was presented, it was obligatory on the Judge to order the election.

Do you not think it is about time to be casting about for material for Representative in the Legislature? There are plenty of good Republicans well qualified for the place and we should be looking out for the best one. With a good man and the right kind of an organization we can win in November. AGRI.

Strictly a Case of Color.

In the Quarterly Court here Wednesday in the case of John Browning vs. Tom Walker, both colored, a colored jury was summoned and tried the case. The controversy came up over a horse which Browning had sold Walker. The horse died soon after Walker got it and he refused to pay the balance due on the horse. Browning brought suit on this ground. Rev. J. J. Fleming, H. C. Pace, Tom Ross, Jack Collins, Green Barnett and Ves Lindley composed the jury. F. L. Felix was the attorney for the plaintiff and M. L. Heavrin for the defense. The jury brought in a verdict for the plaintiff.

This calls to mind a case tried here once before in which a colored jury was summoned. The accused was tried for breach of the peace, and the jury returned a verdict in which they declared he should be sent to the penitentiary.

McLean County.

[LIVERMORE CHRONICLE.] Friday evening while working on a raft of logs, Mr. John Rohmhill, of Centertown, caught his foot between two logs, dislocating his ankle and breaking one of the small bones. He was taken home Saturday morning. Dr. Hillsman is attending him.

Mr. N. J. Burgess, an old gentleman who was reported by some of the papers as dead a few weeks ago, is still living. He was in town Saturday, and requested us to announce that he is "still in the land of the living." Although an old man he looks well, and bids fair to stay with us a long time yet.

The four-year-old son of Gus Landrum, of color, of this place, made a fatal mistake Sunday evening. He went to the kitchen to get a glass of milk and through mistake got hold of a cup of concentrated lye, of which he drank considerable before the mistake was observed. The parents immediately summoned physicians, but all efforts to save the child's life were futile. He died in terrible agony Monday night.

Quite a little excitement was caused Thursday, just before noon, at the lower end of Main street, and an eye witness told how it was caused. It seems that Lee Malden, the detective, who has worked up so many cases against the "Blind Tigers," was going down Main street when he came near one of the stores where the animal is supposed to be caged. Here he was seen by a well known lady, whom he had brought several cases against, and she had a buggy whip in her hand, and as she did not care to let him pass along by her house on the sidewalk, a display of the "persuader" made the "Hawkshaw" take to the roadway.

A complaint was made to Judge Newton and a warrant was issued for the whipwielder.
